"Be the change that you want to see in the world."

Summary

Worked as an IT Senior Programmer at CMA Testing with 6.5 years of experience specializing in front-end and in-house web application development. Familiar with C# .Net/.Net Core, JavaScript, MSSQL, and using RESTful APIs in projects. Interested in devising a better problem-solving method for challenging tasks and learning new technologies and tools if needed.

Work Experience

CMA Testing (CMA Industrial Development Foundation Limited)

<https://www.cmatesting.org/>

SENIOR PROGRAMMER

Jul. 2019 - Mar. 2026

- Develop, maintain, and enhance in-house system applications and websites with .Net C#
- 2 years of experience in Cloud Computing, specializing in leveraging Microsoft Graph API to integrate Azure AD and Microsoft 365 SaaS data into enterprise applications
- Contributed to front-end development of a workflow-related project with React Typescript and Material UI
- Deployed a PDF Digital Signature Web Service (.asmx) with PKCS11Interop and SafeNet eToken (GlobalSign) for cost efficiency, centralization and higher interoperability
- Integrated with internal ERP System and RESTful APIs
- Implemented OCR project for scanning business cards
- Implemented WPF, VBA, and PDF Form filling functions with pdfjs for internal use
- Implemented several API microservices written in .NET Core
- Prepare system documentation, system support, and troubleshooting on the developed systems

WWF (World Wide Fund for Nature Hong Kong)

<https://www.wwf.org.hk/>

INTERNSHIP

Aug. 2018 - Mar. 2019

- Assisted in a blockchain project for sustainable fashion
- Provide data analysis from survey result with IBM SPSS Modeler
- Built an online questionnaire by PHP for mobile devices to show different results after submission according to the answers chosen by a respondent

Star Fantasy

<https://www.starfantasy.net/>

NTP XSPORT HELPER (PART-TIME JOB)

Aug. 2015 - Sep. 2015

- Provided relevant information for visitors and answered their questions with problem-solving skills

Education

The Hong Kong Polytechnic University

2.65 Award GPA

BACHELOR OF SCIENCE (HONOURS) IN COMPUTING

Sep. 2016 - Aug. 2019

- Studied courses related to Computer Science, database concepts, information systems knowledge
- Applied computing theories and programming methodologies in projects and assignments

HKUSPACE Community College

3.56 Graduation GPA

ASSOCIATE OF ENGINEERING (COMPUTER SCIENCE)

Sep. 2014 - Aug. 2016

- Studied courses related to the field of Computer Science, programming skills, logical thinking and problem-solving skills are learned
- Applied problem-solving skills in projects and assignments

Skills

Programming	HTML, CSS, JavaScript, TypeScript, C#, SQL, Python, PowerShell
Back-end	Django, REST API, .Net/.NET Core, MSSQL
Front-end	React, HTML5
Framework and Tools	Ant Design of React, Umi, Next.js, Material UI
Computer Systems	Windows and Linux
Languages	Cantonese, English, and Mandarin
